

RUSH TUTORIAL- How to Create a Client Account

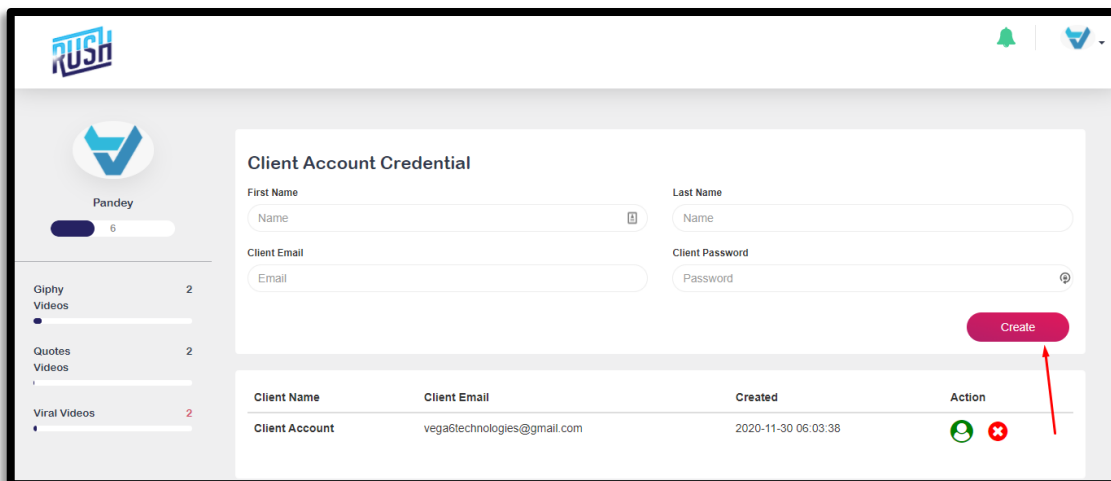

Client Accounts lets you create accounts with only view access. The user can only view the generated videos and does not have permission to edit, update or delete anything.

Follow these simple steps below:

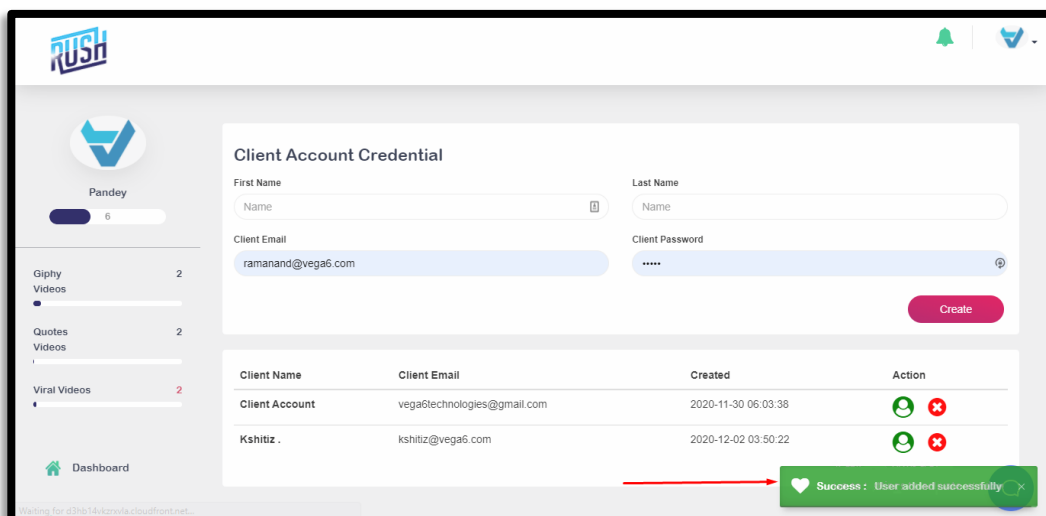

1. On the Rush dashboard, go to your Profile tab dropdown on the upper right side then click on Client Account.

2. Fill out the necessary information then click **Create**.

3. Once done, there will be a pop-up on the lower right side saying "User added successfully". You can see the added user account on the table below the Client Account Credential and just click on the X button you wish to delete it.

- Also, there is option to assign campaigns to your client. Click green icon and select the campaign that you wish to assign to this client.

The screenshot shows the RUSH dashboard interface. On the left, there is a sidebar with the user profile 'Pandey' and a progress bar showing '6'. Below the profile, there are three sections: 'Giphy Videos' with a count of 2, 'Quotes Videos' with a count of 2, and 'Viral Videos' with a count of 2. The main content area is titled 'Client Account Credential' and contains a form with the following fields: 'First Name' (Name), 'Last Name' (Name), 'Client Email' (ramanand@vega6.com), and 'Client Password' (masked with dots). A 'Create' button is located at the bottom right of the form. Below the form is a table with the following data:

Client Name	Client Email	Created	Action
Client Account	vega6technologies@gmail.com	2020-11-30 06:03:38	 

A red arrow points to the green icon in the 'Action' column, which is labeled 'Assign Campaigns to this Client'.
