

RUSH TUTORIAL- How to Create a Virtual Account

Virtual Accounts is a unique feature which enables you to create accounts without sharing your account credentials with anybody else. The user has full access to your account.

Follow these simple steps below:

1. On the Rush dashboard, go to your Profile tab dropdown on the upper right side then click on Virtual Account.

2. Fill out the necessary information then click **Create**.

The screenshot shows the 'Virtual Account Credential' form with fields for First Name, Last Name, Email, and Password. A 'Create' button is visible. Below the form is a table listing the created virtual account.

| Name | Email | Created | Action |
|-----------------|------------------------|---------------------|--------|
| Virtual Account | vega6theteam@gmail.com | 2020-11-30 06:04:09 | X |

3. Once done, there will be a pop-up on the lower right side saying "User added successfully". You can see the added user account on the table below the Virtual Account Credential and just click on the X button if you wish to delete it.
