## TIKTALK PUBLISHER TUTORIAL- How to Upload a Video

In TikTalk Publisher, the first step to publish a post is to upload a video. Follow the simple instructions below on how to upload a video.

1. On the dashboard, click on the Browse files from your Computer option.

The screenshot shows the TikTalk Publisher dashboard. At the top, there is a navigation bar with the logo, 'SCHEDULER', and 'VIEW SCHEDULE'. The main area features a calendar for May 2020 with tabs for 'Daily', 'Weekly', and 'Monthly'. To the right, there are statistics for 'Published Posts' (2) and 'Scheduled Posts' (4). Below these, there are tabs for 'All Videos' and 'Scheduled Videos'. A red box highlights the 'Browse files from your computer' option, which is accompanied by a red arrow pointing to the calendar.

2. Once the upload is successful, you will see the video you just uploaded below the upload option.

This screenshot shows the same dashboard as the previous one, but with a red box highlighting the video upload options. Below the 'Browse files from your computer' option, there are several video thumbnails. At the bottom of the dashboard, there are two QR codes for downloading the TikTalk Publisher app, one for iOS and one for Android.
