

TikTalk Publisher

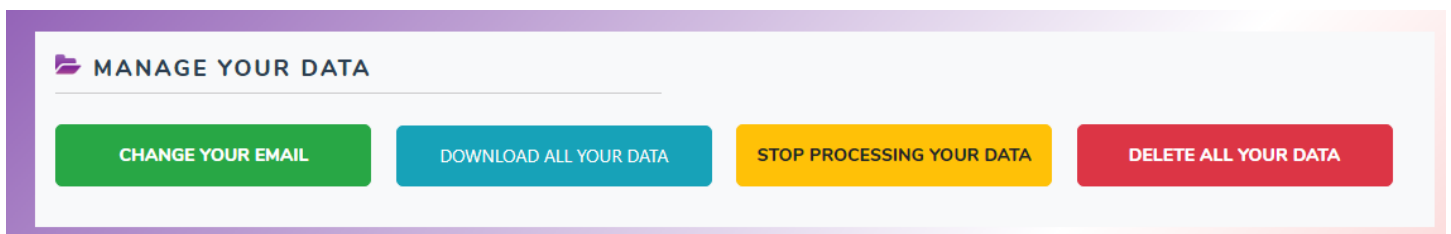

TIKTALK PUBLISHER TUTORIAL- User Profile Options

You can manage your account using the User Account Option in TikTalk Publisher. To access it, follow the steps below:

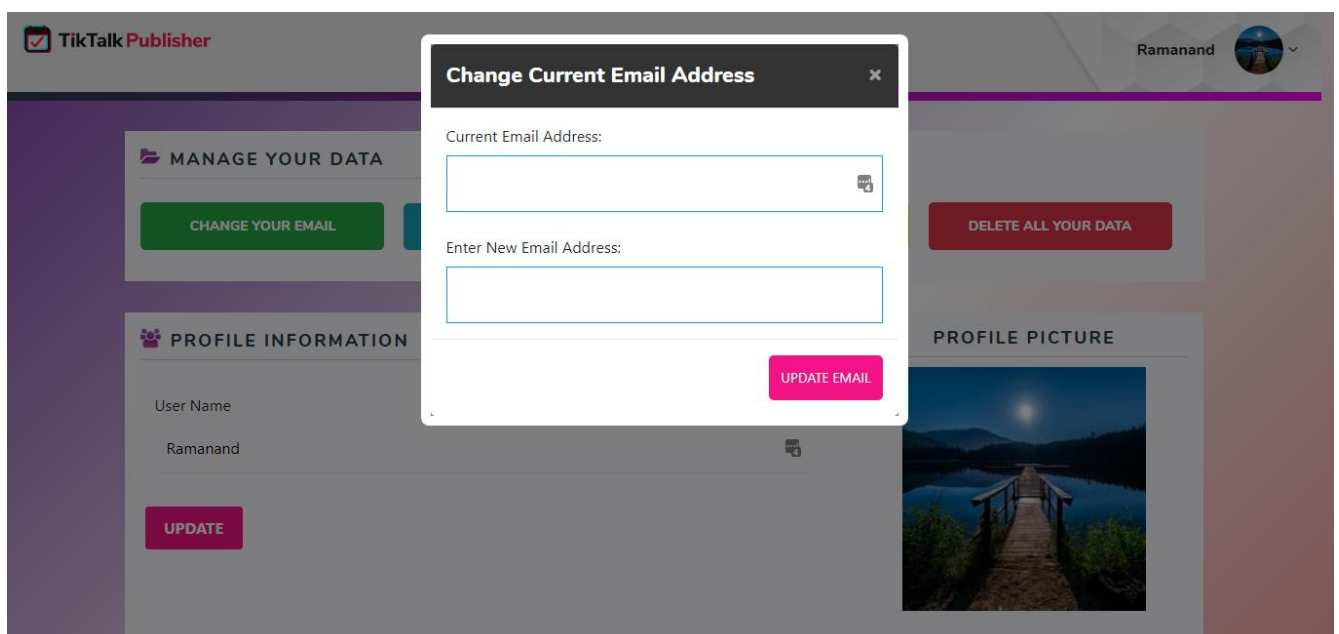

1. Click on the small round icon of your profile located on the upper left side of the screen, then click My Account.

2. Manage your Data- here you can manage the data that is on your Tiktalk Publisher account. You can download, remove or have the app stop processing your data.

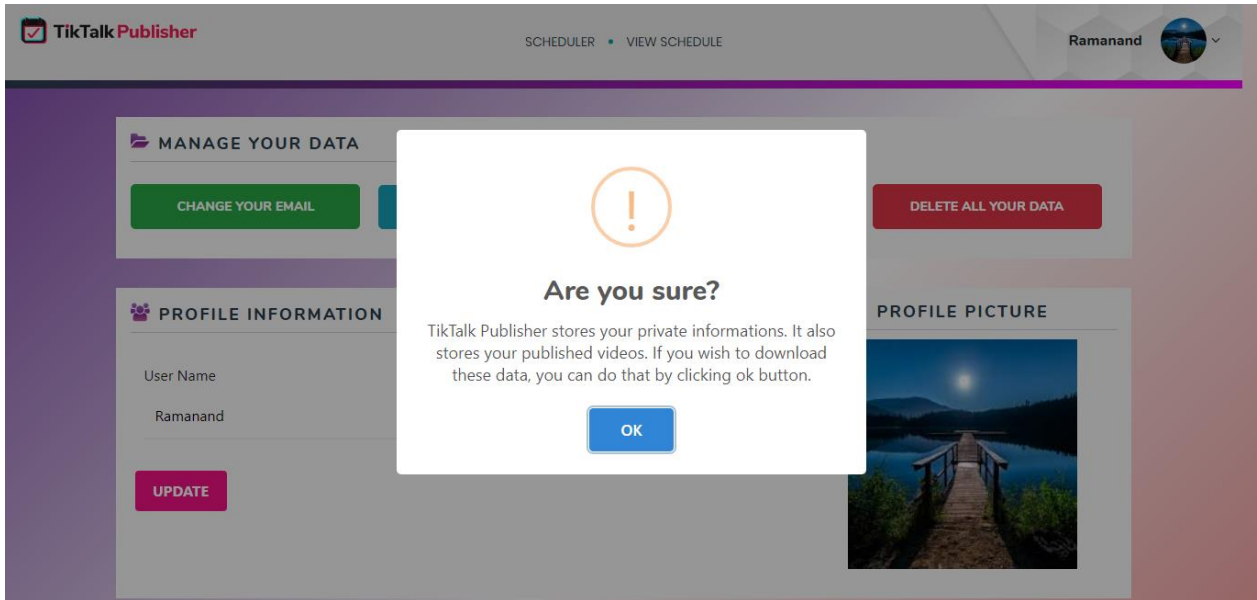

- a. Change You email- this option will let you change your email address registered to the app.

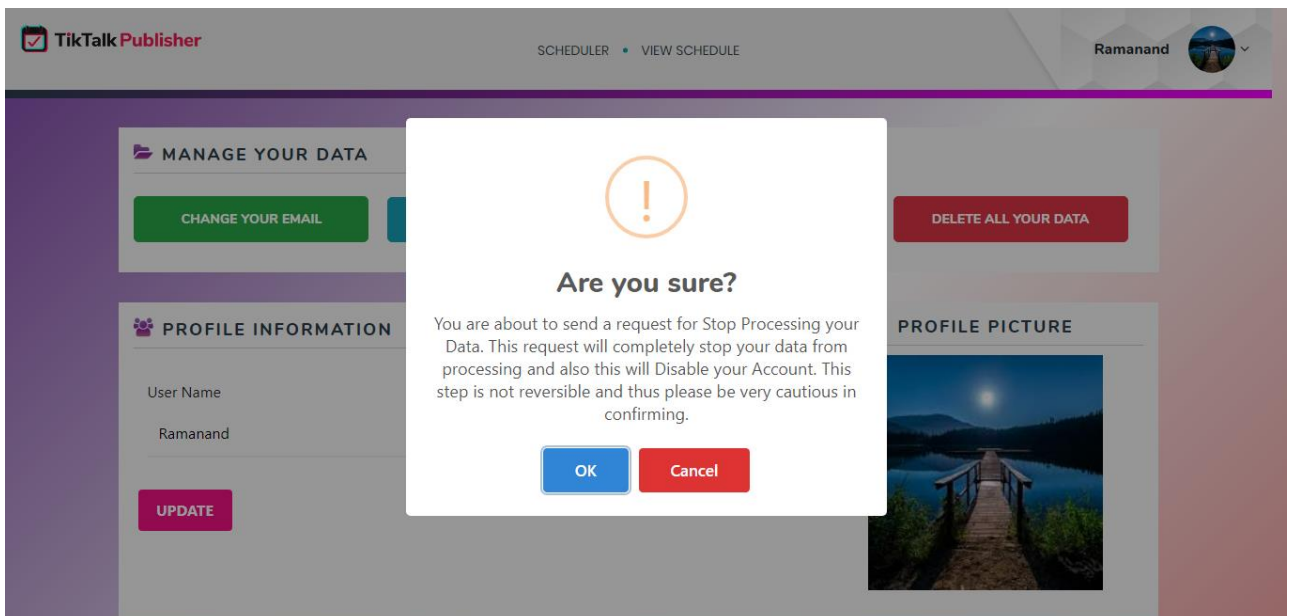

TikTalk Publisher

- b. **Download Your Data**- Select this option if you want to download your private information like your name, email, password as well as your published videos.

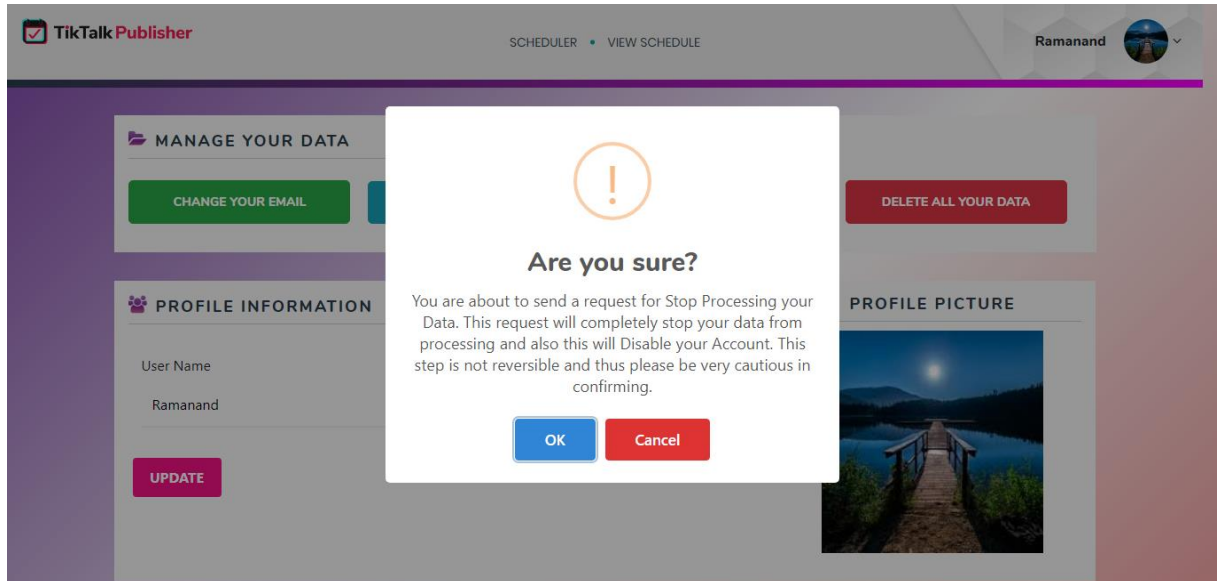

- c. **Stop Processing My Data**- If you wish to stop your private data from getting processed on Tiktalk Publisher you can click the button to do so. Please note that doing this will disable your account and you will not be able to use Tiktalk Publisher further. In-order to reactivate your account you would have to contact the support support@vineasx.com.

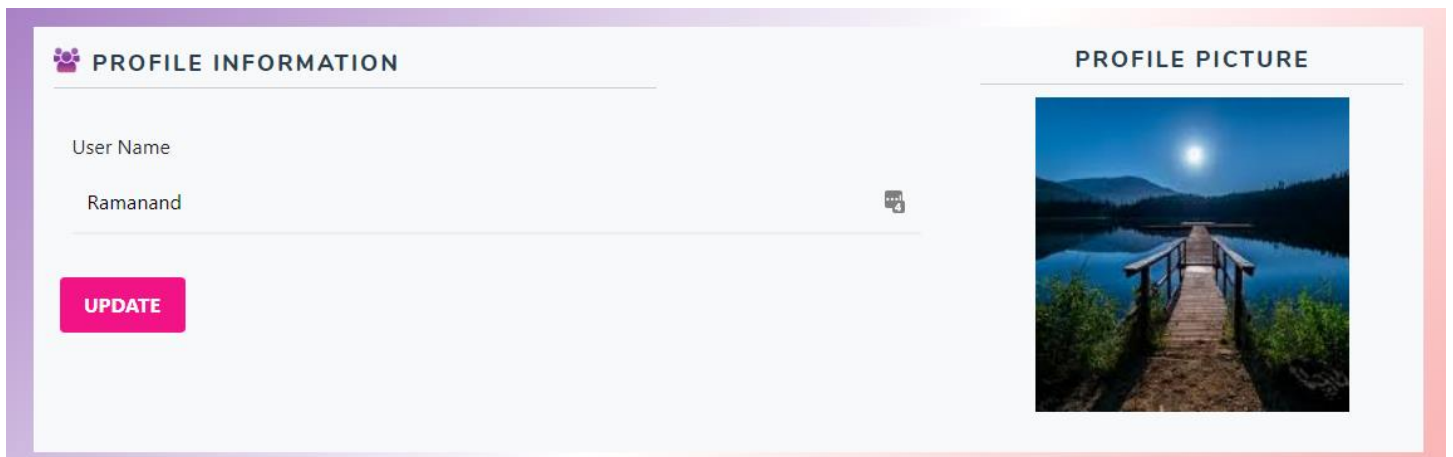

TikTalk Publisher

- d. **Delete My Data-** If you wish to delete all your private data, you can do so by clicking this button. Please note that this will permanently delete all the data of yours from our server. This step is not reversible and you cannot use Tiktalk Publisher further. You cannot undo this step from support also. So if you wish to re-use Tiktalk Publisher again, then you will have to start all over again from scratch.

3. Profile Information tab- here you can update your profile information such as your username, and profile picture.

4. Update Password- this tab is where you can change or update your password.
