

### VIDEOTIK TUTORIAL- How to Connect & Post videos in Dropbox

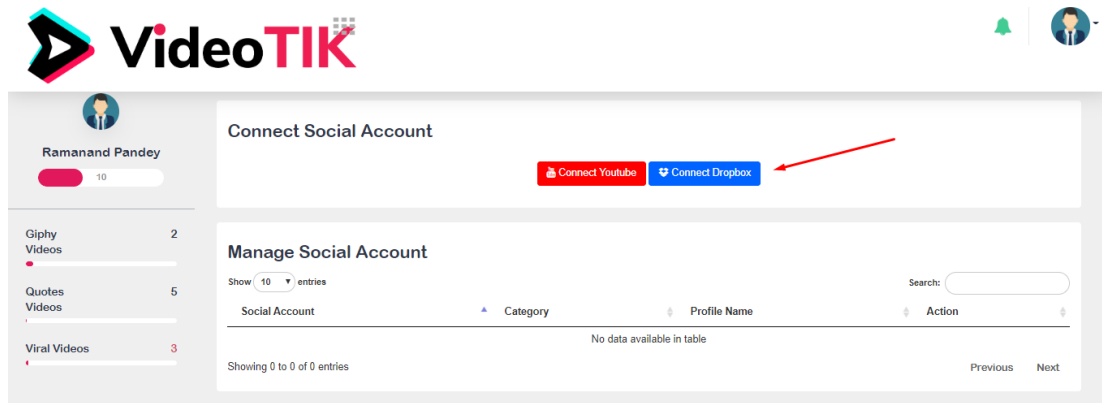

You can create contents from VideoTik and post it to your Dropbox account.

Follow these simple steps below:

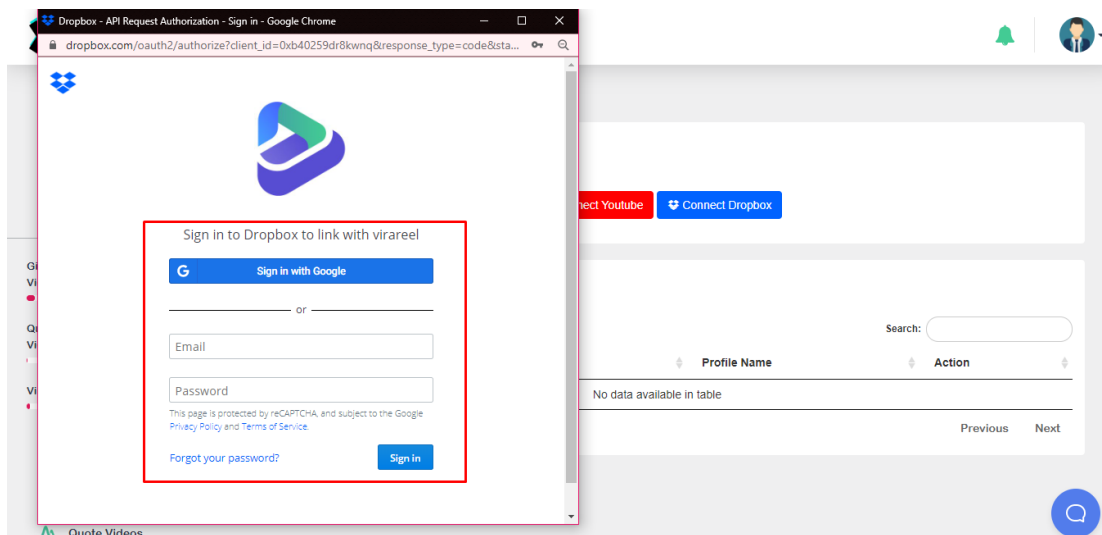

1. On the dashboard, go to your Profile tab dropdown on the upper right part of the screen then click on Social Accounts.

2. Click Connect Dropbox.

3. A pop-up will ask you to login to your Dropbox account. VideoTik is powered by ViralReel so on the consent screen you will see ViralReel.

- Once done, a pop up will appear at the bottom right part of the screen saying you've successfully connected your account. Then you will see the account you just linked with the app on the Manage Social Account tab.

The screenshot shows the VideoTIK dashboard for user Ramanand Pandey. The 'Manage Social Account' section is active, displaying a table with one entry for 'Dropbox'. A red box highlights the table, and a red arrow points from the table to a green success notification at the bottom right.

Social Account	Category	Profile Name	Action
Dropbox	Dropbox		

Showing 1 to 1 of 1 entries

Success: Your Dropbox account is connected now
